about our coffee & why we know you will LOVE it!

It is roasted dark to bring out the full flavour of the eight origin beans from around the world that make up this smooth and velvety coffee. It has a perfectly balanced profile - mildly acidic, while also having excellent depth and body that leaves a pleasant 'chocolatey' aftertaste that lingers in your mouth! Makes an outstanding short black with plenty of cr me, and is also ideal for all milk based coffee's. We LOVE it!
